Not Applicable

(Former Name or Former Address, if Changed Since Last Report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- ☐ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- ☐ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- ☐ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, \$0.01 par value	CRNC	The NASDAQ Stock Market LLC

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§ 230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§ 240.12b-2 of this chapter).

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Item 2.02 Results of Operations and Financial Condition.

On May 10, 2022, Cerence Inc. (the "Company") announced its financial results for the quarter ended March 31, 2022. The press release, including the financial information contained therein, is attached hereto as Exhibit 99.1, and is incorporated herein by reference.

Also on May 10, 2022, the Company used a presentation on its call with investors, discussing its financial results for the quarter ended March 31, 2022, and such earnings release presentation is furnished herewith as Exhibit 99.2. The press release and earnings release presentation include certain non-GAAP financial measures. A description of the non-GAAP measures, the reasons for their use, and GAAP to non-GAAP reconciliations are included in the press release and earnings release presentation.

The information in this Item 2.02 and the exhibit attached hereto are being furnished and shall not be deemed to be "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act") or otherwise subject to the liabilities of that section, nor shall they be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, regardless of any general incorporation language in such filing.

Item 9.01 Financial Statements and Exhibits.

Non-GAAP Net Income per Share - diluted	\$ 0.33	\$ 0.69	\$ 0.93	\$ 1.25

(1) Please refer to the "Discussion of Non-GAAP Financial Measures" and "Reconciliations of GAAP Financial Measures to Non-GAAP Financial Measures" included elsewhere in this release for more information regarding our use of non-GAAP financial measures.

Stefan Ortmanns, Chief Executive Officer at Cerence, commented, "We generated solid financial results fueled by deepened relationships with long-term customers, new wins with innovative EV makers; and expansion in newer areas like heavy trucking and two-wheelers. Despite the headwinds facing the global automotive industry, we continue to deliver on expectations as the world's leading automakers turn to Cerence as their innovation partner."

Ortmanns continued, "With a talented and tenured leadership team firmly in place and a strong pipeline of opportunities for the second half of the fiscal year, we believe we have the momentum to drive long-term, sustainable growth. As we look to Cerence's next phase, we are advancing our strategic roadmap to deliver AI-powered innovations that will transform the digital cabin experience and be integral to the future of mobility."

Cerence Key Performance Indicators

To help investors gain further insight into the Cerence business and its performance, management provides a set of key performance indicators that includes:

Key Performance Indicator ¹	Q2FY22
Percent of worldwide auto production with Cerence Technology (TTM)	52%
Average contract duration - years (TTM):	7.6
Repeatable software contribution (TTM):	79%
Change in number of Cerence connected cars shipped ² (TTM over prior year TTM)	(1%)
Growth in billings per car (TTM over prior year TTM) (excludes Legacy contract ³)	10%

- (1) Please refer to the "Key Performance Indicators" included elsewhere in this release for more information regarding the definition and our use of key performance indicators.
- (2) Based on IHS Markit data, global auto production decreased 2% over the same time period ended on March 31, 2022.
- (3) Legacy contract is a connected services contract with Toyota acquired by Nuance through a 2013 acquisition.

Third Quarter and Full Year Fiscal 2022 Outlook

For the fiscal quarter ending June 30, 2022, revenue is expected to be in the range of \$90 million to \$94 million. Adjusted EBITDA is expected to be in the range of approximately \$26 million to \$30 million. The adjusted EBITDA guidance excludes acquisition-related costs, amortization of acquired intangible assets, stock-based compensation, and restructuring and other costs.

The full-year fiscal 2022 guidance provided by Cerence on February 7, 2022, remains unchanged.

Additional details regarding guidance will be provided during the earnings call.

Second Quarter Conference Call

The company will host a live conference call and webcast with slides to discuss the results today at 8:30 a.m. Eastern Time/5:30 a.m. Pacific Time. Interested investors and analysts are invited to dial into the conference call by using 844.467.7116 (domestic) or +1.409.983.9838 (international) and entering the pass code 5990799. Webcast access will be available on the Investor Information section of the company's website at <https://www.cerence.com/investors/events-and-resources>.

The teleconference replay will be available through May 17, 2022. The replay dial-in number is 1.855.859.2056 (domestic) or +1.404.537.3406 (international) using pass code 5990799. A replay of the

webcast can be accessed by visiting our web site 90 minutes following the conference call at <https://www.cerence.com/investors/events-and-resources>.

Forward Looking Statements

Statements in this release regarding Cerence's future performance, results and financial condition, expected growth, opportunities, business and market trends, and innovation and our management's future expectations, beliefs, goals, plans or prospects constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Any statements that are not statements of historical fact (including statements containing the words "believes," "plans," "anticipates," "expects," "intends" or "estimates" or similar expressions) should also be considered to be forward-looking statements. Although we believe forward-looking statements are based upon reasonable assumptions, such statements involve known and unknown risk, uncertainties and other factors, which may cause actual results or performance of the company to be materially different from any future results or performance expressed or implied by such forward-looking statements including but not limited to: impacts of the COVID-19 pandemic on our and our customers' businesses; the highly competitive and rapidly changing market in which we operate; adverse conditions in the automotive industry, the related supply chain, or the global economy more generally; the impact of the war in Ukraine on our and our customers' businesses; our ability to control and successfully manage our expenses and cash position; our strategy to increase cloud offerings; escalating pricing pressures from our customers; our failure to win, renew or implement service contracts; the loss of business from any of our largest customers; effects of customer defaults; our inability to successfully introduce new products, applications and services; the inability to recruit and retain qualified personnel; disruptions arising from transitions in management personnel; cybersecurity and data privacy incidents; fluctuating currency rates; and the other factors discussed in our most recent Annual Report on Form 10-K, quarterly reports on Form 10-Q, and other filings with the Securities and Exchange Commission. We disclaim any obligation to update any forward-looking statements as a result of developments occurring after the date of this document.

Discussion of Non-GAAP Financial Measures

We believe that providing the non-GAAP information in addition to the GAAP presentation, allows investors to view the financial results in the way management views the operating results. We further believe that providing this information allows investors to not only better understand our financial performance, but more importantly, to evaluate the efficacy of the methodology and information used by management to evaluate and measure such performance. The non-GAAP information should not be considered superior to, or a substitute for, financial statements prepared in accordance with GAAP.

We utilize a number of different financial measures, both GAAP and non-GAAP, in analyzing and assessing the overall performance of the business, for making operating decisions and for forecasting and planning for future periods. While our management uses these non-GAAP financial measures as a tool to enhance their understanding of certain aspects of our financial performance, our management

does not consider these measures to be a substitute for, or superior to, the information provided by GAAP financial statements.

Consistent with this approach, we believe that disclosing non-GAAP financial measures to the readers of our financial statements provides such readers with useful supplemental data that, while not a substitute for GAAP financial statements, allows for greater transparency in the review of our financial and operational performance. In assessing the overall health of the business during the three and six months ended March 31, 2022 and 2021, our management has either included or excluded the following items in general categories, each of which is described below.

Adjusted EBITDA

Adjusted EBITDA is defined as net income attributable to Cerence Inc. before net income (loss) attributable to income tax (benefit) expense, other income (expense) items, net, depreciation and amortization expense, and excluding acquisition-related costs, amortization of acquired intangible assets, stock-based compensation, and restructuring and other costs, net or impairment charges related to fixed and intangible assets and gains or losses on the sale of long-lived assets, if any. From time to time we may exclude from Adjusted EBITDA the impact of events, gains, losses or other charges (such as significant legal settlements) that affect the period-to-period comparability of our operating performance. Other income (expense) items, net include interest expense, interest income, and other income (expense), net (as stated in our Condensed Consolidated Statement of Operations). Our management and Board of Directors use this financial measure to evaluate our operating performance. It is also a significant performance measure in our annual incentive compensation programs.

Restructuring and other costs, net.

Restructuring and other charges, net include restructuring expenses as well as other charges that are unusual in nature, are the result of unplanned events, and arise outside the ordinary course of our business such as employee severance costs, costs for consolidating duplication facilities, and separation costs directly attributable to the Cerence business becoming a standalone public company.

Acquisition-related costs, net.

In the past, we have completed a number of acquisitions, which result in operating expenses, which would not otherwise have been incurred. We provide supplementary non-GAAP financial measures, which exclude certain transition, integration and other acquisition-related expense items resulting from acquisitions, to allow more accurate comparisons of the financial results to historical operations, forward looking guidance and the financial results of less acquisitive peer companies. We consider these types of costs and adjustments, to a great extent, to be unpredictable and dependent on a significant number of factors that are outside of our control. Furthermore, we do not consider these acquisition-related costs and adjustments to be related to the organic continuing operations of the acquired businesses and are generally not relevant to assessing or estimating the long-term performance of the acquired assets. In addition, the size, complexity and/or volume of past acquisitions, which often drives the magnitude of acquisition related costs, may not be indicative of the size, complexity and/or volume of future acquisitions. By excluding acquisition-related costs and adjustments from our non-GAAP measures,

management is better able to evaluate our ability to utilize our existing assets and estimate the long-term value that acquired assets will generate for us. We believe that providing a supplemental non-GAAP measure, which excludes these items allows management and investors to consider the ongoing operations of the business both with, and without, such expenses.

These acquisition-related costs fall into the following categories: (i) transition and integration costs; (ii) professional service fees and expenses; and (iii) acquisition-related adjustments. Although these expenses are not recurring with respect to past acquisitions, we generally will incur these expenses in connection with any future acquisitions. These categories are further discussed as follows:

- (i) Transition and integration costs. Transition and integration costs include retention payments, transitional employee costs, and earn-out payments treated as compensation expense, as well as the costs of integration-related activities, including services provided by third-parties.
- (ii) Professional service fees and expenses. Professional service fees and expenses include financial advisory, legal, accounting and other outside services incurred in connection with acquisition activities, and disputes and regulatory matters related to acquired entities.
- (iii) Acquisition-related adjustments. Acquisition-related adjustments include adjustments to acquisition-related items that are required to be marked to fair value each reporting period, such as contingent consideration, and other items related to acquisitions for which the measurement period has ended, such as gains or losses on settlements of pre-acquisition contingencies.

Amortization of acquired intangible assets.

We exclude the amortization of acquired intangible assets from non-GAAP expense and income measures. These amounts are inconsistent in amount and frequency and are significantly impacted by the timing and size of acquisitions. Providing a supplemental measure which excludes these charges allows management and investors to evaluate results "as-if" the acquired intangible assets had been developed internally rather than acquired and, therefore, provides a supplemental measure of performance in which our acquired intellectual property is treated in a comparable manner to our internally developed intellectual property. Although we exclude amortization of acquired intangible assets from our non-GAAP expenses, we believe that it is important for investors to understand that such intangible assets contribute to revenue generation. Amortization of intangible assets that relate to past acquisitions will recur in future periods until such intangible assets have been fully amortized. Future acquisitions may result in the amortization of additional intangible assets.

Non-cash expenses.

We provide non-GAAP information relative to the following non-cash expenses: (i) stock-based compensation; and (ii) non-cash interest. These items are further discussed as follows:

- (i) Stock-based compensation. Because of varying valuation methodologies, subjective assumptions and the variety of award types, we exclude stock-based compensation from our operating results. We evaluate performance both with and without these measures because compensation expense related to stock-based compensation is typically non-cash and awards granted are influenced by the Company's stock price and other factors such as volatility that are beyond our control. The expense related to stock-based awards is generally not controllable in the short-term and can vary significantly based on the timing, size and nature of awards granted. As such, we do not include such charges in operating plans. Stock-based compensation will continue in future periods.
- ii) Non-cash interest. We exclude non-cash interest because we believe that excluding this expense provides management, as well as other users of the financial statements, with a valuable perspective on the cash-based performance and health of the business, including the current near-term projected liquidity. Non-cash interest expense will continue in future periods.

Other expenses.

We exclude certain other expenses that result from unplanned events outside the ordinary course of continuing operations, in order to measure operating performance and current and future liquidity both with and without these expenses. By providing this information, we believe management and the users of the financial statements are better able to understand the financial results of what we consider to be our organic, continuing operations. Included in these expenses are items such as other charges (credits), net, losses from extinguishment of debt, and changes in indemnification assets corresponding with the release of pre-spin liabilities for uncertain tax positions.

Bookings.

Bookings is defined as the amount of revenue we expect to earn from an agreement with our customers for products and services. To count as a booking, we expect there to be persuasive evidence of an arrangement, which may be evidenced by a legally binding document or documents, and that the collectability of the amounts payable under the arrangement are reasonably assured. The revenue we may actually recognize from our estimated bookings is subject to multiple factors, including but not limited to the timing of satisfying performance obligations, potential terminations, or changes in the scope of programs utilizing our technology and currency fluctuations. There is no comparable GAAP financial measure.

Key Performance Indicators

We believe that providing key performance indicators ("KPIs"), allows investors to gain insight into the way management views the performance of the business. We further believe that providing KPIs allows investors to better understand information used by management to evaluate and measure such performance. KPIs should not be considered superior to, or a substitute for, operating results prepared in

accordance with GAAP. In assessing the performance of the business during the three months ended March 31, 2022, our management has reviewed the following KPIs, each of which is described below:

- *Percent of worldwide auto production with Cerence Technology:* The number of Cerence enabled cars shipped as compared to IHS Markit car production data.
- *Average contract duration:* The weighted average annual period over which we expect to recognize the estimated revenues from new license and connected contracts signed during the quarter, calculated on a trailing twelve months ("TTM") basis and presented in years.
- *Repeatable software contribution:* The percentage of repeatable revenues as compared to total GAAP revenue in the quarter on a TTM basis. Repeatable revenues are defined as the sum of License and Connected Services revenues.
- *Change in number of Cerence connected cars shipped:* The year over year change in the number of cars shipped with Cerence connected solutions. Amounts calculated on a TTM basis.
- *Growth in billings per car:* The rate of growth calculated from the average billings per car based on a TTM basis, excluding legacy contract and adjusted for prepay usage.

See the tables at the end of this press release for non-GAAP reconciliations to the most directly comparable GAAP measures.

Reconciliations of GAAP Financial Measures to Non-GAAP Financial Measures

(unaudited - in thousands)

Forward-Looking Statements

This material and any oral statements made in connection with this material include "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. Statements made which provide the Company's or management's intentions, beliefs, expectations or predictions for the future are forward-looking statements and are inherently uncertain. The opinions, forecasts, projections or other statements (other than statements of historical fact), including, without limitation, statements regarding the Company's future performance, results and financial condition, expected growth, opportunities, business and market trends, and innovation, and management's future expectations, beliefs, goals, plans or prospects, are forward-looking statements. It is important to note that actual results could differ materially from those discussed in such forward-looking statements. Important factors that could cause actual results to differ materially include the risk factors and other cautionary statements contained from time to time in the Company's SEC filings, which may be obtained by contacting the Company or the SEC. These filings are also available through the Company's web site at <http://www.cerence.com> or through the SEC's Electronic Data Gathering and Analysis Retrieval System (EDGAR) at <http://www.sec.gov>. We undertake no obligation to publicly update or revise any forward-looking statement after the date of this document.

Delivers on Q2 2022 Expectations

- Solid performance in key financial and KPI metrics for the business
- Excellent first half bookings underscore robust demand
- Strong pipeline with several competitive take-away opportunities
- Managing macro headwinds to deliver on customer and product deliveries
- Remain on track for fiscal year 2022 guidance

- c) CFFO equals GAAP net cash provided by operating activities

Detailed GAAP Revenue Breakdown

<i>In millions</i>	Q2FY21	Q3FY21	Q4FY21	Q1FY22	Q2FY22
Total License:	\$54.4	\$50.0	\$51.4	\$46.8	\$46.3
Variable ¹	\$37.1	\$31.8	\$20.8	\$21.5	\$20.2
Total Fixed ²	\$17.3	\$18.2	\$25.4	\$20.1	\$25.6
Prepaid (cash upfront)	\$17.3	\$18.2	\$3.3	-	\$5.7
Minimum Commitment (no cash upfront)	-	-	\$22.1	\$20.1	\$19.9
Other Markets ³	-	-	\$5.2	\$5.2	\$0.5
Connected Services:	\$27.7	\$30.2	\$25.6	\$28.2	\$19.3
Total New	\$12.1	\$14.3	\$9.5 ⁴	\$12.2	\$11.0
Subscription/Usage	\$12.1	\$10.6	\$9.5 ⁴	\$11.3	\$11.0
Customer Hosted ⁵	-	\$3.7	-	\$0.9	-
Legacy ⁶	\$15.6	\$15.9	\$16.1	\$16.0	\$8.3
Professional Services	\$16.6	\$16.6	\$21.1	\$19.4	\$20.7
Total Revenue:	\$98.7	\$96.8	\$98.1	\$94.4	\$86.3

Total revenue declined YoY and QoQ due mostly to:

- Decline in Legacy contract (new run rate for next 11 quarters)
- Macro environment
- Decline in variable license revenue due to consumption of fixed license contracts

Fixed revenue in Q2FY22; signed approximately \$20M minimum commitment contract:

- GAAP revenue recognized in quarter
- Cash collected over approximately 5 years

Solid performance in Professional Services

¹ Based on volume shipments of licenses

² Fixed license revenue includes prepaid and minimum commitment deals

³ Non-automotive revenue

⁴ Includes a negative one-time adjustment of \$1.7M

⁵ Customer Hosted is a software license that allows the customer to take possession of the software and enable hosting by the customer or a third party

⁶ Legacy contract is a connected services contract with Toyota acquired by Nuance through a 2013 acquisition

Appendix

License Business Revenue Recognition

Type of Contract	Description	GAAP Revenue Recognition	Cash Receipt
Variable	License applied at production	Quarter car is produced. Based on volume	Quarter following GAAP revenue recognition
Fixed (Pre-Pay)	Bulk inventory purchase (\$ based)	Full value of contract at signing. Volume independent	Standard payment terms for full value (upfront payment)
Fixed (Minimum Commitment)	Commitment to purchase (\$ based) in a specified time period. (1 – 5 years)	Full value of contract at signing. Volume independent	Based on shipment volumes over multiple years

The fixed contracts only apply to the license business. If a car is also using our connected services, it will follow the normal billing and revenue recognition process regardless of whether a variable or fixed license was applied.

The fixed contracts typically provide the customer with a price discount and can include the conversion of a variable contract that is already in our variable backlog.

Connected and Professional Services Revenue Recognition

Connected Services	Typical Period	GAAP Revenue Recognition	Cash Receipt
Subscription Term	1 – 5 years	Amortized evenly over subscription period	Billed/collected full amount at start of subscription period (value added to deferred revenue)
Usage Contract ^{1,2}	1 – 5 years	Recognized at same time of billing based on actual usage	Billed every quarter based on actual usage
Customer Hosted ³	License	Quarter in which license is delivered to customer	Upon delivery

1. Approximately 30% of new connected revenue is usage based and is primarily with one customer.

2. Usage can be defined by number of active users or number of monthly transactions

3. Customer Hosted is a software license that allows the customer to take possession of the software and enable hosting by the customer or a third-party

Professional Services	Period	GAAP Revenue Recognition	Cash Receipt
Custom Design Services	Ongoing	Revenue is recognized over time based upon the progress towards completion of the project	Billed/collected on milestone completion

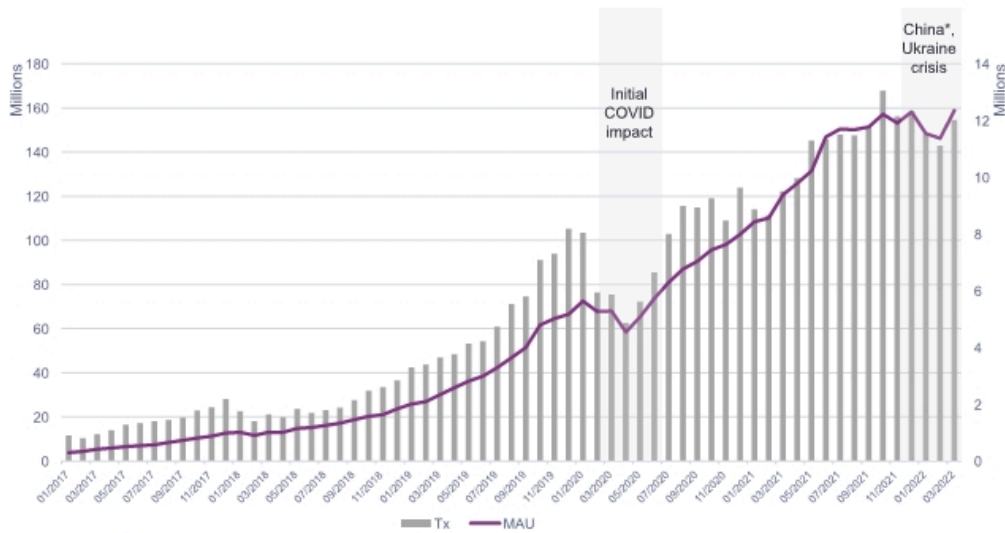

KPI Measures – Definitions

Key performance indicators

We believe that providing key performance indicators ("KPIs"), allows investors to gain insight into the way management views the performance of the business. We further believe that providing KPIs allows investors to better understand information used by management to evaluate and measure such performance. KPIs should not be considered superior to, or a substitute for, operating results prepared in accordance with GAAP. In assessing the performance of the business during the three months ended March 31, 2022, our management has reviewed the following KPIs, each of which is described below:

- **Percent of worldwide auto production with Cerence technology:** The number of Cerence enabled cars shipped as compared to IHS Markit car production data.
- **Average contract duration:** The weighted average annual period over which we expect to recognize the estimated revenues from new license and connected contracts signed during the quarter, calculated on a trailing twelve months ("TTM") basis and presented in years.
- **Repeatable software contribution:** The percentage of repeatable revenues as compared to total GAAP revenue in the quarter on a TTM basis. Repeatable revenues are defined as the sum of License and Connected Services revenues.
- **Change in number of Cerence connected cars shipped:** The year over year change in the number of cars shipped with Cerence connected solutions. Amounts are calculated on a TTM basis.
- **Growth in billings per car:** The rate of growth calculated from the average billings per car based on a trailing twelve month comparison while excluding legacy contract and adjusted for prepay usage.

52% of Worldwide Production Ships with Cerence Technology

* Supply chain impact from further COVID lockdowns in Greater China

Transactions are defined as the number of initiated user interactions with the company's cloud computing platforms.

Non-GAAP Financial Measures – Definitions

Discussion of Non-GAAP Financial Measures

We believe that providing the non-GAAP information in addition to the GAAP presentation, allows investors to view the financial results in the way management views the operating results. We further believe that providing this information allows investors to not only better understand our financial performance, but more importantly, to evaluate the efficacy of the methodology and information used by management to evaluate and measure such performance. The non-GAAP information should not be considered superior to, or a substitute for, financial statements prepared in accordance with GAAP.

We utilize a number of different financial measures, both GAAP and non-GAAP, in analyzing and assessing the overall performance of the business, for making operating decisions and for forecasting and planning for future periods. While our management uses these non-GAAP financial measures as a tool to enhance their understanding of certain aspects of our financial performance, our management does not consider these measures to be a substitute for, or superior to, the information provided by GAAP financial statements.

Consistent with this approach, we believe that disclosing non-GAAP financial measures to the readers of our financial statements provides such readers with useful supplemental data that, while not a substitute for GAAP financial statements, allows for greater transparency in the review of our financial and operational performance. In assessing the overall health of the business during the three months ending March 31, 2022 and 2021, our management has either included or excluded the following items in general categories, each of which is described below.

Adjusted EBITDA

Adjusted EBITDA is defined as net income attributable to Cerence Inc. before net income (loss) attributable to income tax (benefit) expense, other income (expense) items, net, depreciation and amortization expense, and excluding acquisition-related costs, amortization of acquired intangible assets, stock-based compensation, and restructuring and other costs, net or impairment charges related to fixed and intangible assets and gains or losses on the sale of long-lived assets, if any. From time to time we may exclude from Adjusted EBITDA the impact of events, gains, losses or other charges (such as significant legal settlements) that affect the period-to-period comparability of our operating performance. Other income (expense) items, net include interest expense, interest income, and other income (expense), net (as stated in our Condensed Consolidated Statement of Operations). Our management and Board of Directors use this financial measure to evaluate our operating performance. It is also a significant performance measure in our annual incentive compensation programs.

Non-GAAP Financial Measures – Definitions

Restructuring and other costs, net.

Restructuring and other charges, net include restructuring expenses as well as other charges that are unusual in nature, are the result of unplanned events, and arise outside the ordinary course of our business such as employee severance costs, costs for consolidating duplication facilities, and separation costs directly attributable to the Cerence business becoming a standalone public company.

Acquisition-related costs, net.

In recent years, we have completed a number of acquisitions, which result in operating expenses, which would not otherwise have been incurred. We provide supplementary non-GAAP financial measures, which exclude certain transition, integration and other acquisition-related expense items resulting from acquisitions, to allow more accurate comparisons of the financial results to historical operations, forward looking guidance and the financial results of less acquisitive peer companies. We consider these types of costs and adjustments, to a great extent, to be unpredictable and dependent on a significant number of factors that are outside of our control. Furthermore, we do not consider these acquisition-related costs and adjustments to be related to the organic continuing operations of the acquired businesses and are generally not relevant to assessing or estimating the long-term performance of the acquired assets. In addition, the size, complexity and/or volume of past acquisitions, which often drives the magnitude of acquisition related costs, may not be indicative of the size, complexity and/or volume of future acquisitions. By excluding acquisition-related costs and adjustments from our non-GAAP measures, management is better able to evaluate our ability to utilize our existing assets and estimate the long-term value that acquired assets will generate for us. We believe that providing a supplemental non-GAAP measure, which excludes these items allows management and investors to consider the ongoing operations of the business both with, and without, such expenses.

These acquisition-related costs fall into the following categories: (i) transition and integration costs; (ii) professional service fees and expenses; and (iii) acquisition-related adjustments. Although these expenses are not recurring with respect to past acquisitions, we generally will incur these expenses in connection with any future acquisitions. These categories are further discussed as follows:

- **Transition and integration costs.** Transition and integration costs include retention payments, transitional employee costs, and earn-out payments treated as compensation expense, as well as the costs of integration-related activities, including services provided by third-parties.
- **Professional service fees and expenses.** Professional service fees and expenses include financial advisory, legal, accounting and other outside services incurred in connection with acquisition activities, and disputes and regulatory matters related to acquired entities.
- **Acquisition-related adjustments.** Acquisition-related adjustments include adjustments to acquisition-related items that are required to be marked to fair value each reporting period, such as contingent consideration, and other items related to acquisitions for which the measurement period has ended, such as gains or losses on settlements of pre-acquisition contingencies.

Non-GAAP Financial Measures – Definitions

Amortization of acquired intangible assets.

We exclude the amortization of acquired intangible assets from non-GAAP expense and income measures. These amounts are inconsistent in amount and frequency and are significantly impacted by the timing and size of acquisitions. Providing a supplemental measure which excludes these charges allows management and investors to evaluate results “as-if” the acquired intangible assets had been developed internally rather than acquired and, therefore, provides a supplemental measure of performance in which our acquired intellectual property is treated in a comparable manner to our internally developed intellectual property. Although we exclude amortization of acquired intangible assets from our non-GAAP expenses, we believe that it is important for investors to understand that such intangible assets contribute to revenue generation. Amortization of intangible assets that relate to past acquisitions will recur in future periods until such intangible assets have been fully amortized. Future acquisitions may result in the amortization of additional intangible assets.

Non-cash expenses.

We provide non-GAAP information relative to the following non-cash expenses: (i) stock-based compensation; and (ii) non-cash interest. These items are further discussed as follow:

- (i) Stock-based compensation. Because of varying valuation methodologies, subjective assumptions and the variety of award types, we exclude stock-based compensation from our operating results. We evaluate performance both with and without these measures because compensation expense related to stock-based compensation is typically non-cash and awards granted are influenced by the Company’s stock price and other factors such as volatility that are beyond our control. The expense related to stock-based awards is generally not controllable in the short-term and can vary significantly based on the timing, size and nature of awards granted. As such, we do not include such charges in operating plans. Stock-based compensation will continue in future periods.
- (ii) Non-cash interest. We exclude non-cash interest because we believe that excluding this expense provides management, as well as other users of the financial statements, with a valuable perspective on the cash-based performance and health of the business, including the current near-term projected liquidity. Non-cash interest expense will continue in future periods.

Other expenses.

We exclude certain other expenses that result from unplanned events outside the ordinary course of continuing operations, in order to measure operating performance and current and future liquidity both with and without these expenses. By providing this information, we believe management and the users of the financial statements are better able to understand the financial results of what we consider to be our organic, continuing operations. Included in these expenses are items such as other charges (credits), net, losses from extinguishment of debt, and changes in indemnification assets corresponding with the release of pre-spin liabilities for uncertain tax positions.

Q2 FY22 Reconciliations of GAAP to Non-GAAP Results

(unaudited - in thousands, except per share data)	Three Months Ended March 31,		Six Months Ended March 31,
